

I'VE HAD BLOOD TESTS TAKEN SO WHAT HAPPENS NOW?

- Most tests can be analysed within one week however some tests will take longer.
- The practice will not contact you routinely to give you your results. Please follow the instruction given to you by the Doctor/Nurse regarding follow up. You may have been asked to make a return appointment with your usual Doctor and you should do this at your convenience.
- If your results need actioned urgently, a doctor may contact you by telephone to discuss what action needs to be taken.
- You should telephone the Practice to get your results **Monday – Friday between 10am-4pm**. You must contact the practice yourself as we are unable to give your results to anyone else unless you have given us written permission to do so.
- Please note that results for blood tests taken outwith the Practice will be returned to the requester, e.g. hospital Consultant. You should therefore contact the requestor or their secretary to obtain these results. Unfortunately we cannot do this for you.

PLEASE KEEP YOUR ADDRESS AND CONTACT DETAILS UP-TO-DATE WITH THE PRACTICE.
